

This form is used to notify the waste management authority of Kuusamo about the composting of bio-waste (food waste, i.e., organic waste generated in the kitchen). The possessor of the property must submit a notification of one property unit at a time.

In order to report the details, you need the building and parcel number of the property, you can find them in the real estate tax information. We also ask you to give the details of the person in charge of composting, who is responsible for the proper handling of the compost.

The information in the register is used for waste sorting efficiency calculation, reporting, waste management planning and, if necessary, monitoring.

1. Details of the possessor of the property

first name _____
family name _____
street address _____
postal code _____
town _____
telephone number _____

- the possessor of the property is the person in charge of composting, please continue from section 3.
 the possessor of the property is not the person in charge of composting, please fill in section 2 also.

2. Details of the person in charge of composting

The person in charge of composting is responsible for the proper handling of the composter.

first name _____
family name _____
street address _____
postal code _____
town _____

3. Details of the property to which the notification applies

The building and parcel numbers of the property can be found in the real estate tax information.

permanent building number _____
parcel number _____

- permanent residential use
 leisure use
 detached house or one-room property
 terraced house, apartment building or property with more than one room, no. of units: _____

4. Composting: select one of the three options by ticking

- bio-waste generated on the property is composted in the property's composter.
- bio-waste generated on the property is composted in a shared composter located on another property. The address of the property where the shared composter is located:

- there is a shared composter on the property, which is used by several properties. How many properties use the shared composter located on the _____ property: Addresses of properties that use the shared composter:

5. Composter

The composter is designed for composting bio-waste generated in the kitchen. The composter is ventilated, it has a base, walls and a lid, harmful animals cannot enter it (openings of no more than 0.7 cm), thermally insulated if necessary.

- the composter meets the above requirements

The size of the composter in litres, if there are several composters, please give the total volume _____

Months of use of the composter (1-12) _____

The months of use can be reported even if the composter is frozen, in case it is used as a collecting container and proper composting will start when the weather warms up.

6. Confirmation

- I certify that the information I have given is correct
- I commit to notify the waste management authority of any changes in composting, or of its termination

my signature, with which I confirm the correctness of the information:

place and date: _____

signature: _____

printed name: _____

Please return the completed form to the post-box located at the front door of the Town Hall or send to the following address: Kuusamon kaupunki, Yhdyskuntatekniikka, komposti-ilmoitukset, Keskuskuja 6, PL 9, 93601 Kuusamo

We recommend submitting your notification via an electronic form, which can be found on Kuusamo Town website at [kuusamo.fi/asuminen ja ymparisto/asuminen/jatehuolto/komposti-ilmoitus](https://kuusamo.fi/asuminen-ja-ymparisto/asuminen/jatehuolto/komposti-ilmoitus) (in Finnish)
